

## Dakota Alert Driveway Alarm and Floodlight

### Dakota Alert Driveway Alarm and Floodlight

The DCPA-2500 is a driveway alarm kit that is used to detect vehicles only. The DCR-2500 receiver has four form "C" relay outputs and one 12VDC output. The output durations are adjustable up to 10 minutes. The receiver will play one of four different tunes that are selected at the transmitter so that different zones can be distinguished.

### DCRH-2500 Driveway Alarm

The DCRH-2500 is a very reliable and easy to install driveway alarm. The transmitter operates on one 9-volt battery and has 25' of 3/8" diameter exterior hose that will lie across the drive. When a vehicle drives over the hose, a signal will be sent to the DCR-2500 receiver up to 1/2 miles away\*.

### DCMA-2500 Wireless Motion Detector/Receiver Kit

The DCMA-2500 is a feature filled wireless motion detector/receiver kit with a 1/2 mile\* radio range. The passive infrared sensor operates on one 9-volt battery (not included). It will detect a person or vehicle from over 50 feet away and send a signal back to the receiver within a 1/2 mile.

### HM LED Floodlight with PIR (Passive Infrared) Motion Detector

- Low energy/exceptional illumination. Generates around 100 lumens per watt.
- Utilizes the latest Samsung™ LEDs with a lifespan of up to -50,000 hours
- Includes a large junction box with 5 access points. Built in photocell for night operation.
- Easy installation with 3 simple adjustments: Time, light level -and motion detection.
- Walk test facility for daytime testing. Manual override for use on switched circuit.
