

EXIT ALARMS

EAX-500 SERIES

Designed for applications that require an alarmed exit device on secured doors. The alarm, with approximately 100dB, will sound when someone attempts an unauthorized exit. The EAX-500, with its redesigned shape and smaller size make it the choice for quick and easy installations on emergency exit and restricted doors.

2.10" Wide x 2.375" Deep x 7.70" Long
Cylinder not included

EAX-500W SERIES

Weatherized Exit Alarm is designed for applications that require an alarmed exit device on secured doors, particularly emergency exits that open to the outdoors or wet environment. The alarm, with approximately 100dB, will sound when someone attempts an unauthorized exit. The EAX-500W, with its redesigned shape and smaller size, make it the choice for quick and easy installations on emergency exit and restricted doors.

EAX-2500S SERIES

Designed for applications that require a 9VDC battery or external AC/DC powered alarmed exit device on secured doors. The alarm, with approximately 100dB, will sound when someone attempts an unauthorized exit. The EAX-2500, with its smaller size and designed to fit in a standard 4" x 4" outlet box makes it the choice for quick and easy installations on emergency exit and restricted doors.

MAGNETIC SWITCHES

- Specifications:
- Surface & Flush mounted
 - Max contact ratings 24 volt @ .5 amp
 - Switch (SPDT)
 - Wiring / color coded leads, 12" long

EXIT CONTROL HARDWARE

ECL-230 SERIES

Features:

- Attack and corrosion resistant cast aluminum housing.
- Easy to install with basic tools.
- UL listed Panic Hardware, ADA compliant.
- ECL-230D comes with a 5 year limited warranty standard.
- Battery operated (can be converted with optional battery eliminator kits).
- Exit bar signs available in English.
- High decibel alarm horn.
- Saw resistant deadbolt, with a 1" throw.
- Outside key control available.
- Can be used with F90KR Keyed Removable Mullion, BE-961 Battery Eliminator.

DXECL-230D Exit Control Lock

ECL-2111K 9V Conv-Kit F/ECL-230C&D

Physical Specifications:

- Die-cast aluminum alloy housing w/Detex Gray Vein 3 finish.
- Push plate/bar dimensions: 3 1/4" high x 12 7/8" wide
- Minimum std. door width is 20".

PANIC HARDWARE

The V40xEB device option is designed for doors that require a stand alone, battery powered, alarmed panic device. The alarm, with approximately 100dB, will sound when someone attempts to exit, alerting management that an unauthorized exit has occurred. With electronic switching that monitors the latch bolt, the V40xEB provides a high level of security while also meeting all life safety concerns. The V40xEB is UL listed as Grade 1 panic and fire exit hardware as well as UBC standard 7-2 (positive pressure).

- UL Listed as Grade 1 Panic/Fire Exit Hardware
- Exceeds Life Safety, ADA, CA Title 19, ANSI/BHMA requirements and all building codes
- All units shipped less control cylinder (Fire Rated Device must be less dogging)
- All units include #99 surface strike
- Standard Finish: Aluminum (628) baseplate, red push pad with white warning letters, and black (711) cover, filler plate and end cap
- Standard 9V battery supplied with each device

Physical Characteristics:

- Exterior of anodized aluminum and damage and corrosion resistant ABS for years of heavy use.
- Stainless-steel, dead-latching bolt with a 3/4" throw.
- 36" fits 34" to 36" doors

Battery Powered Exit Alarm (9VDC) for 36" door, less control cylinder

- Length - 33"
- Height of cover 8 1/2"
- Profile from face of door - Un-dogged 3 1/4", dogged 2 3/8"

- Fits 2" narrow stile doors with Narrow Stile Door Kit (sold separately)

DX F90KR

Keyed Removable Mullion

The Detex Keyed Removable Mullions are very durable, low cost mullions designed for use with rim exit devices on standard and fire rated pairs of doors. The unique design of the latching head allows the mullion to be removed in seconds with one key turn, and then to be snapped back into place without needing the key.

Features:

- 3hour Fire Rated
- Mullion length 8 ft. easy to Seld-cut to length
- 11 gage, 2"x 3" tube
- Operated by standard rim cylinder
- Self-latching - no need to reinsert the key to engage the mullion tube
